

Application & Embedded Design Services

Quick time-to-market - Proven track record - Technology expertise

Quotes

"If I haven't told you already - I wanted to let you know how appreciative and impressed I am with your dedication to this project and the quality of work. Plainly put - above and beyond all our expectations."

- Albert Ting, CEO

"We have used A2e on several difficult development efforts. They have performed flawlessly and have always put in the extra effort to help make us successful. I would not hesitate to recommend them to anyone."

- Keith McNally, CEO

"A2e was extremely thorough and professional, from both a project management and execution standpoint. They committed and supplied highly skilled individuals and completed the project on schedule. Program documentation and wrap-up was also handled very well. We will definitely use them again in the future."

- Anton Monk, VP Eng.

Partners

A2e Technologies is an Electronic Design Services (EDS) firm providing custom application and embedded product design services to Industry and Government. We provide everything you need to develop your technology based product or system.

From working with you to create functional specifications, to A2e Technologies handling the design specification, scheduling, cost estimation, engineering, project management, program management, prototyping, certifications, quality assurance and delivery.

A2e Technologies is your complete outsourcing solution!

A2e Technologies provides the following **technical services**:

- **System Architecture & Design**
- **Application Programming**
- **Embedded Hardware & Software Design**
- **DSP Hardware and Firmware/Algorithm Design**
- **Analog & RF Design**
- **ASIC & FPGA Design**
- **PCB Layout**
- **Manufacturing & Prototyping**
- **Quality Assurance**
- **Mechanical & Industrial Design**
- **Function & Design Specification Writing**

We get you to market quickly!

A2e Technologies has the following **domain/market expertise**:

- **Home Media, Digital Video & Voice, Imaging**
- **DSP Expertise** (Hardware Design & Firmware/Algorithm Design, MATLAB Simulation to C coding to Assembly Language Optimizations)
- **Consumer Mobile Devices** (Hardware & Software, PDAs, Cell Phones, BREW, Symbian, Palm, Windows CE)
- **Wireless & Networking** (802.11x, UWB, Blue Tooth, WiFi, WiMax, Custom RF)
- **Automotive**
- **Test & Measurement** (Sensors, Digital Oscilloscopes, Arbitrary Waveform Generators, Signal Generators, etc...)
- **Medical Devices**
- **Enterprise Software**
- **RoHS/WEEE and End-of-life electronics re-design** (lead free, replace obsolete parts, retain form/function)

Please contact us to discuss how we can help with your current development needs. Our staff has years of experience making outsourced projects a success.

A2e Technologies

San Diego, CA (Corp.)

7585 Ronson Road
Suite 102
